Appl. No. 10/627,267 Amdt. Dated September 21, 2004 Reply to Office Action of May 21, 2004

Amendments to the Claims:

This listing will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (Currently amended): A resin composition for purging away contaminant contaminants in the a plastic processing machine comprising which resin composition comprises:

- (A) 100 parts by weight of a thermoplastic resin; and
- (B) 0.1-10 parts by weight of a borate ester of polyoxyalkylene expressed by the following general formula (1)

$$R^{\frac{1}{2}} \frac{\left(OCH_{2}CH_{2}\right)_{a} \left(OCH_{2}CHCH_{3}\right)_{b}}{\left(OCH_{2}CH_{2}\right)_{c} \left(OCH_{2}CHCH_{3}\right)_{d}} O B$$

$$R^{\frac{3}{2}} \frac{\left(OCH_{2}CH_{2}\right)_{e} \left(OCH_{2}CHCH_{3}\right)_{f}}{\left(OCH_{2}CH_{2}\right)_{e} \left(OCH_{2}CHCH_{3}\right)_{f}} O$$

$$(1)$$

wherein R1, R2 and R3 are independently selected from the group consisting of hydrogen and a hydrocarbon group, and wherein a, b, c, d, e and f, independently are positive integers independently from 0 to 30 with the proviso that the whose sum of a + b + c + d + e + f is from 6 to 80.

Appl. No. 10/627,267 Amdt. Dated September 21, 2004 Reply to Office Action of May 21, 2004

- Claim 2 (Currently amended): A resin composition for purging away contaminant contaminants in the a plastic processing machine according to claim 1, which further comprising comprising:
- C) 0.1-10 parts by weight of a aminogroup an amino-group containing compound.
- Claim 3 (Currently amended): A purging method of purging contaminants from a contaminant in the plastic processing machine by which comprises the steps of:
- A) providing a plastic processing machine having an inner surface that has contaminants thereon from a previous plastic processing step; and
- B) passing the resin composition of claim 1 or 2 through inside of said plastic processing machine. machine so as to purge the contaminants from step A).
